1958 HARDY MUM INTRODUCTIONS

UNIVERSITY OF NEW HAMPSHIRE has added two new varieties to the Granite Series. This makes a total of 12 in this series, all of which were produced by Prof. Elwyn Meader. The New Hampshire varieties are characterized for the most part by unusual hardiness, vigor, frost resistant flowers and strong stems. The two new varieties listed here were named March, 1957 but not available for listing until 1958.

***Granite Pleasure** (Meader-1957) Dark brick red double 2¾" flowers on sturdy 24" plants. Exceptionally frost resistant flowers on strong stems. A very vigorous winter hardy variety starting to bloom about Sept. 20. Stands weather conditions that would ruin many varieties. Well worth growing. Price 60c each; 3 for \$1.20.

Granite Truth (Meader-1957) A very early blooming double white with 2½" flowers on compact rounded plants about 20" tall. Although flowers are not very frost resistant, they bloom well ahead of it, starting about Aug. 15. The earliest white we grow. Price 60c each; 3 for \$1.20.

UNIVERSITY OF MINNESOTA has long been known for its introduction of early blooming, hardy, colorful mums. We list two 1958 introductions here. (See general list for others).

***Minnehaha** (University Minn.-1958) Salmon rose 2½" double flowers on 20" by 20" sturdy bushy plants. Blooms mid-September; stiff stems; suitable for bouquets. Price 75c each; 3 for \$1.50.

***Princess** (University of Minn.-1958) Carnation type 2" old rose double flowers with gold tipped petals borne on 15-18" plants which start to bloom in late August and continue until freezing weather. Mound type vigorous plants with 20" spread. Price 75c each; 3 for \$1.50.

OREGON STATE COLLEGE through Prof. Kraus, has released many outstanding varieties of hardy mums. No other breeder of hardy mums has given us so many fine varieties. We are also listing many of his best 1957 introductions which we tested in 1957. Please see general list for these.

Arthur Bouquet (Kraus-1958) A brilliant orange-scarlet 2½"-3" flower with reflexed petals. Sturdy, well branched 18"-24" plants. Very showy in landscape plantings. Price 75c each; 3 for \$1.50.

Coral Dolman (Kraus-1958) Rich deep purple 3" flowers with silver reverse. Stems well branched. Stiff upright plants, 24"-30" tall. Price 75c each; 3 for \$1.50.

Marie Rusek (Kraus-1958) A bright lemon yellow button; 1"-1½" flowers with broad stiff petals. Dense bushy upright plants, 12"-18" tall. Price 75c each; 3 for \$1.50.

Sadie Cooper (Kraus-1958) Delicate cream and shell pink; 3"-4" flowers borne on firm long flower stems. Deep green foliage. Good cut flower. Height 18"-24". Price 75c each; 3 for \$1.50.

INFORMATION AND PRICES ON ALL CHRYSANTHEMUM PLANTS LISTED

- LARGER QUANTITIES:** 5 at 3X the each price; 10 at 5X the each price.
- SUBSTITUTIONS:** Please tell us whether substitutions are permissible. Give second or third choice if you wish. We always give additional value when we substitute and as near the same type and color as we can. Please mark orders "Substitutions permitted" or "No substitutions".
- SHIPPING DATES:** Feb. 1 to June 15 on varieties marked *. May 1-June 15 on all other varieties.
- TIME OF DELIVERY:** Please mark orders with earliest, (preferred), and latest dates acceptable to you as (May 10-May 20-May 30).
- TYPES OF PLANTS SHIPPED:** All prices apply to rooted cuttings. We can supply transplants at the nursery throughout the summer but orders for these should be made in advance to facilitate pick-up.
- PLANTING:** Protect plants at time of planting from frost. Early orders can be potted or flatted where facilities permit. Many now plant directly in the field after danger of frost is over.
- RESULTS:** Rooted cuttings are used almost exclusively by commercial growers. They should give excellent large blooming plants by fall.
- BLOOMING DATES:** Dates refer to the time blooming starts. Most varieties bloom until freezing weather with the exception of a few very early ones.
- TYPES OF FLOWERS.** All varieties listed have double flowers except as noted.
- DIRECTIONS FOR GROWING:** We shall be glad to send directions to all customers on request.

OTHER INTERESTING PERENNIAL VARIETIES

- DIANTHUS "PINK PRINCESS".** A clear dark pink; fragrant, double, medium size flowers on plants 12" tall to 18" wide. Starts blooming in early June and blooms five to seven weeks with a few blooms all summer. Extremely hardy, fast growing. Plants from rooted cuttings usually bloom same year. Rooted cuttings only on mail orders. Price 3 for \$1.00.
- *DIANTHUS BEATRIX.** A very vigorous, sturdy, fast growing light pink. Everblooming, June until fall. Rooted cuttings, 3 for \$1.00.
- *CARNATION "KISS OF FIRE".** Very brilliant red on 12"-15" plants. It is larger flowered than above but plants are less compact. Rooted cuttings, 3 for \$1.00.
- MONARDA (BEE BALM) GRANITE PINK.** Introduced by Prof. Risley of the Univ. of New Hampshire. A seedling of Croftway Pink but more dwarf than that variety. A fast growing beautiful pink. Suitable for cut flowers and a very low maintenance perennial. Makes a very smooth uniform "hedge". Single divisions, will bloom this year. 3 for \$1.00; 5 for \$1.50; 10 for \$2.50; 25 for \$5.00.
- AJUGA METALLICA CRISPA** is a very hardy, fast growing perennial for either sun or shade. Excellent ground cover and will grow in very dry rocky soil. Has purple-green colorful leaves, which turn a much deeper purple in cold fall weather. Sapphire blue flowers in May. Single division, 5 for \$1.00; 35 for \$5.00.

AJUGA "PINK SPIRE" blooms over a long period (May-June). It is slower growing than the above and more suitable for rock gardens. Leaves are green. This variety is not often seen in gardens but it is certainly one of the best. Divisions; 3 for \$1.00; 10 for \$2.50; 25 for \$5.00.

Note: The perennials above are also prepaid but combined order for mums and perennials must total \$3.00 or more.

NEW RED RASPBERRIES FROM THE NEW HAMPSHIRE AGRICULTURAL EXPERIMENT STATION

Outstanding new varieties include the "New Hampshire" and the "Durham" which together give a supply almost all summer and fall.

NEW HAMPSHIRE is the latest red raspberry with strong, vigorous, hardy plants bearing very heavy crops of large firm conic berries of good quality. Proven winter hardy in areas much colder than N. H.

DURHAM is the earliest good fall bearer available today. Bears on the new canes, starting in late August and continuing until freezing weather. For fall crop only, cut all canes in early winter.
